Dear members of the dental world.

I am delighted having the opportunity to address you as the current President of ADDE. I am honoured to be for more than three decades part of such fabulous community working towards a common goal: improving the oral health.

Dental suppliers, dental depots, dental distributors, members of the national dental associations are important players in the dental industry. They help ensure that dental professionals have the tools they need to provide high-quality care to their patients. They work closely with dental manufacturers to bring new products to market and make sure that dental professionals have access to the latest technology and materials.

The IDS, International Dental Show, takes place every two years in Cologne, Germany and provides a comprehensive overview of the latest products, technologies, and trends in the dental industry. This year, IDS 2023 is scheduled to take place from March 20-24, 2023, and we are celebrating its 100th anniversary.

After the difficult Covid years, we, ADDE, have once again the possibility **to present you our findings on the latest trends in the dental trade.** This survey indicates how our business has processed the year 2022 and what we shall expect in the next years.

There are several key trends and opportunities in the dental trade that are expected to continue to grow in the coming years. Some of these include:

- 1. Digital Dentistry and 3D Printing:** The use of digital technology in dentistry is increasing rapidly and is expected to continue to grow in the future.
- 2. Implantology:** The demand for dental implants is expected to continue to grow as more people seek to replace missing or damaged teeth.

3. Orthodontics: Clear aligners and other clear orthodontic solutions are becoming more popular among adult patients, and the market is expected to continue to grow.

4. Advanced materials: Advancements in materials science are providing new materials for dental restorations and implants.

5. Teledentistry: The use of technology to provide dental services remotely is expected to continue to grow as more people seek ways to access dental care without leaving home.

6. And last but not least: Preventive dental care. Prevention is the key factor for the global oral health.

The dental trade, like any other industry, faces a number of challenges and potential concerns.

The world is changing, and our dental world does, too. It continues to be the thrilling place as we all know it and as we like it, but it also requires us to change.

To change our perception, to change our methods.

I once again thank you for your ongoing enthusiasm and I look forward to seeing us achieve our missions and making a real progress in our dental world. Let us make it happen together!

Dr. Pavel Smažik
President ADDE

ADDE CAN HELP YOU AS A MANUFACTURER

Manufacturers looking for distributors and importers around Europe choose ADDE – Association Dental Dealers Europe - to expand their EU distribution network.

EU Distributors and importers use our Survey or our Association ADDE to find new products and partners.

HADER SOLUTIONS & DISTRIBUTION LTD. is the “One-Stop Shop” that delivers on high quality, has CE markings conforming with the new MDR, and offers fair prices on implant components, attachments, and specialty prosthetic items in Europe.

WE ARE LOOKING FOR EUROPEAN DISTRIBUTORS

WHO IS ADDE?

European wide umbrella organisation with national federations from Germany, France, UK, Italy, The Netherlands, Belgium, Bulgaria, Spain, Austria, Ireland, Czech Republic, Malta and Switzerland. In total these national federations represent more than 1000 Dental depots with some 50'000 employees.

The Board

President

Dr. Pavel Smažik, Czech Republic

Board members

Ed Attenborough, United Kingdom

Jean Martin-Dondo, France

Atilla Trägner, Austria

Martin Ravets, Belgium

Etienne Bachet, Malta

Gerard Lavery, Ireland

Secretary-General

Dominique Deschietere, Belgium

The main tasks of ADDE

ADDE was constituted in 1964 and they are an associate member of FDI World Dental Association, an active member of UAPME, European association of Croft, small and medium sized companies and they have a closely collaboration with FIDE, European association of dental manufacturers, based on the yearly meeting with both associations and this in a sense speaking about an European Dental Board Meeting – ONE DENTAL VOICE.

Countries

- Austria
- Belgium
- France
- Italy
- Czech Republic
- Germany
- Great Britain
- Ireland
- The Netherlands
- Switzerland
- Ukraine
- Spain
- Malta

The goals of ADDE

- Close contact to the European Dental Industry European network with industry (FIDE), dentists (FDI) and (CED), laboratories (FEPPD).

- To bring together the representative national dealer associations of all European countries. Defence of interests of member federations Information exchange (most relevant news relating to the Dental Trade).

- To develop amongst its members a spirit of fellowship, moral support, exchange of professional knowledge and practical experience on technical, trade and legal matter.

- To pool their knowledge with a view to improve general working conditions.

- To co-ordinate common interests of both the dental industry and the dental trade in Europe together with ADDE's sponsor members from the manufacturers' side and FIDE.

- European Dental Voice Gatekeeper in the EU-administration via Faros, our law office in Brussels. Cooperation in the technical and legal fields related to the Dental business.

- To provide our market with information through our annual Dental Survey, in close collaboration with FIDE: Better and evolved Economic Data. This through our yearly survey.

ADDE WORKING GROUPS

The Medical Device Coordination Group (“MDCG”) published an updated overview of the ongoing work performed by its subgroups.

The work performed is divided into the following categories:

i. Notified Bodies Oversight (NBO)

vii. New Technologies

ii. Standards

viii. Eudamed

iii. Clinical Investigations and Evaluation (CIE)

ix. Unique Device Identification (UDI)

iv. Post-Market Surveillance and Vigilance (PMSV)

x. International Matters

v. Market Surveillance (MS)

xi. In vitro Diagnostic Medical Devices (IVD)

vi. Borderline & Classification (B&C)

xii. Nomenclature

Following these subgroups inside the MDCG, ADDE organised following working groups.

1

Medical Device Regulation

The consequences for our EU dealers

President Ed Kolsteeg

Email: Ed@vgt.nl

2

New and Emerging Technologies

Impact and future rules about the new disruptive technologies as scanning, intra-and extra-oral, milling and laser fusing and 3D printing.

President: Atilla Traegner

Email: attila.traegner@kulzer-dental.com

3

Tackling the problem of Counterfeit Dental Devices

Unfair competition from businesses who do not comply with health and safety requirements imposed by EU law.

President Edmund Proffitt

Mail: edmundproffitt@bdia.org.uk

ADDE welcomes new members to the working groups, please contact the working group chair directly if you are interested to participate.

New Working Group

COMING UP : New regulations for distributors and E-commerce business as well as antitrust regulations

FIDE

PRESENTATION

The Federation of the European Dental Industry - FIDE - was founded in May 1957, with its General Secretariat located in Cologne, Germany since that time. Today FIDE represents the interests of more than 550 dental manufacturers affiliated to FIDE through the membership of its national dental manufacturers' associations from 13 European countries.

Countries

- Austria
- Belgium
- France
- Italy
- Denmark
- Netherlands
- The United Kingdom
- Spain
- Switzerland
- Germany
- Ukraine

FIDE is a founding member of the IDM (International Dental Manufacturers Association), and an affiliate member of the FDI World Dental Federation.

In partnership with the whole dental sector, FIDE interfaces with the dental practice through the ERO and FEPPD, and the dental trade through the Association of Dental Dealers in Europe, ADDE. Together, the FIDE Executive Committee and the ADDE board of Officers comprise the European Dental Business Committee EDBC, providing a forum for regular exchange. The close cooperation between ADDE and FIDE has led to the creation of the joint European Dental Market Survey, which is published annually.

FIDE's involvement on its members' behalf includes the following areas:

-
- Liaison and lobby efforts with medical legislation and standardization bodies (the European Commission, CEN TC 55, ISO TC 106).
-
- The representation of the European dental manufacturing industry to international bodies (IDM, FDI, ISO).
-
- Collating reliable statistics for the dental industry.
-
- Co-ordination of interests with regard to international dental exhibitions and congresses.
-
- Working groups on technical aspects of the dental industry.
-

The FIDE website, **www.fide-online.org**, presents published exhibition reports, regulatory affairs articles, a current list of international exhibitions, links and contact information for member associations, the Executive Committee and staff. Information on FIDE history, objectives and goals, along with information about the Survey on the European Dental Trade, can be found on the website as well.

FAROS

The newly founded law firm Faros, based in Brussels, is unique in its focus on competition law, data protection and compliance as a boutique firm building upon relevant expertise in high-profile cases. The Faros team previously worked with ADDE at the law firm contrast and remains the long term partner of ADDE. Members of the Faros team are ranked by leading independent legal directories, including Chambers and Partners.

The Faros team aims to provide clear and hands-on advice to its high-end international and national clients, turning the technicalities of competition law into clear guidance for the business. Faros frequently handles cases before the European Commission. Faros approaches competition law out of the box, which is best expressed by its extensive competition law compliance programme and its track record of leading publications.

Faros has extensive and relevant experience with distribution agreements. The team is regularly asked to speak at national and international conferences and events on the new European rules on vertical agreements that were amended in 2022. One of the Faros team members acted as expert advisor to DG Competition of the European Commission regarding the new EU regime on vertical agreements.

Faros provides ADDE on a monthly basis with relevant updates in the distribution sector as well as on developments relating to the Medical Device Regulation. Exciting times are ahead with the new Block Exemption Regulations on R&D and Specialisation and the new Horizontal Guidelines expected to be adopted by the middle of 2023. Hence, more relevant information for the ADDE members may be expected in the near future.

QUESTIONNAIRE FOR THE ACTUAL SURVEY

1.
 - 1.1. Total inhabitants
 - 1.2. Total number of practising dentists (public and private)
 - 1.3. Total number of full time equivalent of practising dentists (public and private)
 - 1.4. Number of new graduate dentists (state examined) in 2022
 - 1.5. Number of dentist training institutions: dental faculties (public and private)
 - 1.6. Number of independent businesses
 - 1.7. Total number of dental hygienists
 - 1.8. Total number of dental hygienists
 - a). Percentage of dental hygienists that are operating their own business
 - 1.9. Total number of dental laboratories: (dentists' and commercial laboratories)
 - 1.10. Number of active dental technicians (laboratory owners & employees in dentists' and commercial laboratories)
2.
 - 2.1. Total sales value (retail) of all dental equipment that requires professional installation delivered to dentists/laboratories (excl. Practice Management Software) in Euro; VAT excluded
 - a). to Dentists
 - b). to laboratories
 - 2.2. Total sales value of Practice Management Software installations
 - a). to Dentists
 - b). to laboratories
 - 2.3. Total sum of sales of all other equipment (in Euro; VAT excl.) (excl. computers) delivered to dentists/laboratories
 - a). to Dentists
 - b). to laboratories
 - 2.4. Total sum of sales (retail) of sundries/consumables (excluding teeth / implants) delivered (in Euro; VAT excluded;)
 - a). to Dentists
 - b). to laboratories
 - 2.5. Total sum of sales (retail) of teeth delivered to dentists and laboratories (in Euro; VAT excluded)
 - a). to Dentists
 - b). to Laboratories
 - 2.6. Total sum of sales of implants (in Euro; VAT excluded)
 - a). to Dentists
 - b). to Laboratories
 - 2.7. Total sum of value of after-sales technical services incl. spare parts (in Euro; VAT excluded)
 - a). to Dentists
 - b). to Laboratories

- 3.**
- 3.1.** 3.1 How many dental packages (consisting of patient chair, spittoon and dental unit) have been installed in 2022
- a) What is the average sales value of such a dental package (in EURO; VAT excluded)
- 3.2.** 3.2 Shares by type of X-Ray Equipment installed in 2022
- a).** Number of Intra Oral X-Ray units installed
- b).** Number of 2D X-Ray units installed
- c).** Number of 3D X-Ray units installed
- 3.3.** Number of Phosphor Plate Systems installed
- 3.4.** Number of Intra Oral Sensors installed
- 3.5.** Number of new Digital Intra Oral Scanners installed (stand-alone or part of chair side system)
- 3.6.** Number of new Surgery CAD/CAM milling units installed Number of new Laboratory CAD/CAM milling units installed
- 3.7.** What % of dental offices use computers for "in surgery" activities (e.g. intra oral cameras / clinical charting etc.)
- 3.8.** What percentage of dental practices uses intra-oral cameras
- 4.**
- 4.1.** Share of total sales value (retail) of all dental equipment that requires professional installation delivered to dentists/laboratories (excl. Practice Management Software) in Euro; VAT excluded
- 4.2.** Share of total sales value of Practice Management Software
- 4.3.** Share of total sales value of all other equipment (in Euro; VAT excl.) (excl. Computers for administrative purposes) delivered to dentists/laboratories
- 4.4.** Share of total sales value (retail) of sundries/consumables (excluding teeth / implants) delivered (in Euro; VAT excluded;)
- 4.5.** Share of total sales value (retail) of teeth delivered to dentists and laboratories (in Euro; VAT excluded)
- 4.6.** Share of total sales value of implants (in Euro; VAT excluded)
- 4.7.** Share of total value of after-sales technical services incl. Spare parts (in Euro; VAT excluded)
- 5.**
- 5.1.** What is the total number of dental dealers in your country?
- 5.2.** How MANY of those dealers are:
- a).** Full service dental dealers (equipment; sundries; teeth; tech. service)
- b).** Full service dental dealers with less than 5 employees (FTE)
- c).** Full service dental dealers with more than 5 employees (FTE)
- d).** Mail order houses (= no reps, not visiting customers)
- e).** Specialized dealers (concentrated on particular segments e.g. implants or orthodontic items)
- f).** Any others

- 6.**
- 6.1.** What % of the total business in your country (dentist and laboratory) is delivered by:
- a).** Full service dental dealers (equipment; sundries; teeth; tech. service)
 - b).** Full service dental dealers with less than 5 employees (FTE)
 - c).** Full service dental dealers with more than 5 employees (FTE)
 - d).** Mail order houses (no reps visiting customers)
 - e).** Specialized dealers (concentrated on particular segments e.g. implants or orthodontic items)
 - f).** any others
 - g).** Manufacturers direct
 - h).** What % of the total business is supplied from outside the country directly to the dentists bypassing the local dealer net
- 6.2.** What % of the total retail business value is purchased by the dentists in your country via e-commerce / Internet?
- 7.** What % of finished laboratory work for your country is being supplied from outside your country
- 8.** Please specify your expectations for the growth rate of the dental market in your country for
- a) 2022 and b) the following year
- a).** 2023
 - b).** 2024
 - c).** 2025
 - d).** 2026
- 9.** Please indicate your major dental event taking place between April 2022 and March 2023 in your country:
- 10.** Please indicate all VAT rates that apply in your dental market as per 01.01.2023.
- a).** Normal rate
 - b).** Rate for Dental Services
 - c).** Rate for Equipment
 - d).** Exceptions, please specify
- 11.** How many people in your country are working in
- a).** Dental Manufacturer Company
 - b).** Dental Distribution Company
